The level of service we received from Erica & Martin Wynne at Platinum Private exceeded all of our expectations. They provided us with ongoing feedback regarding our property from the day of listing our property through to settlement day. They were confident in their ability to sell our property which made us feel positive & at ease with our decision to sell our property with Platinum Private. Erica & Martin displayed exceptional negotiation skills, achieving a sales price that was above and beyond what we had expected. We felt that throughout the sale process they had our best interests at heart, while making the buyer of our property feel happy & secure in her purchase. We highly recommend you enlist the services of Erica & Martin Wynne from Platinum Private when selling your property!

Rachel & Chris Kelly.

Hi Martin & Erica,

Thank you so much for all your help in selling both of our homes. It has been a pleasure to work with both of you, your professionalism, but more so, your honesty and integrity were very evident. A credit for your excellent communication, we were always aware of what was happening and going on.

We had no hesitation contacting you after you sold our previous home a few years back and now after selling these houses, we again would highly recommend you to anyone who is looking to list their property. Again, thank you for everything you have done.

Craig & Shelley

"From our first meeting with Martin and Erica from Platinum Private, we were extremely impressed with their both their professionalism, presentation and their marketing plan for the sale of our property. We found them to be honest, friendly and very approachable. They kept us well informed throughout the whole process held regular 'Open for inspections' through to a successful outcome. They were also very efficient in arranging their photographer and having the property listed on various internet sites within a week."
